

Work-based Entrepreneurship Training for People with Disabilities – WOT

Aim of the project

The aim of WOT project is to promote inclusive entrepreneurship for people with disabilities by developing a methodology based on job shadowing, mentoring and coaching of people with physical disabilities willing to become entrepreneurs or freelancers.

Mentoring will be carried out on the workplace preferably by entrepreneurs and freelancers with a physical disability, coaching by partners' staff. The desired outcome of the project is a number of people with physical disabilities will start a business or a freelance activity, or cooperating in managerial positions in already established business or consulting companies.

Duration of the project:
01.12.2016 – 31.05.2019

The WOT partnership has finished the pilot phase of the main results during which we have checked:

1. if the methodology developed by the project is effective for every target group (people with disabilities, entrepreneurs and trainers) and how to rise further its effectiveness;
2. if the IOs developed by the project are effective.

The pilot phase was very complex and have involved several target groups, such as 3 **trainers** belonging to each partner organization who were trained with the IO1 and 2. Total 12 trainers.

In every partner country **10 entrepreneurs and freelancers**, preferably with a disability, were trained with the IO1 and IO2. E-course: How to mentor people with disability for developing inclusive entrepreneurship. Total 40 entrepreneurs and freelancers.

In every partner country 10 people with disabilities were trained face to face (including a training mobility) with IOs 3 and 4 and with job shadowing and mentoring on the work place. Total 40 people with disabilities.

The final version of the results is available on our website.

Fourth partners meeting took place in Rzeszów on 26-27 September 2018. Partners have discussed project implementation - the state of progress at each Partner's organization, piloting phase results and elaboration of the final version of results.

The final project meeting will take place in Paris on 16-17 January 2019.
